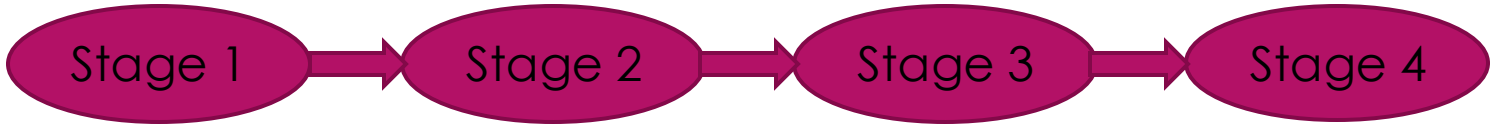
Yanko Yanev

Stages of work



1st week

We assigned everyone's roles and began the project.

2nd week

We started developing the main components of the project and made progress on the initial tasks.

3rd week

We were almost done with the project and we began working on the documentation.

4th week

We completed the project and finished the presentation.

Used Technologies

Thank you for your attention,

and now, let's head to the site!
